In the Matter of

DOCKET FILE COPY ORIGINAL

Advanced Television Systems
and Their Impact upon the
Existing Television Broadcast Service

MM Docket No. 87-268

REPLY COMMENTS OF COMMUNITY ACCESS TELEVISION
IN THE FOURTH FURTHER NOTICE OF PROPOSED RULEMAKING
AND THIRD NOTICE OF INQUIRY

To The Commission:

Community Access Television is writing in response to your request for reply comments in the Fourth Further Notice of Proposed Rulemaking/ Third Notice of Inquiry, FCC 95-315. in the above-captioned proceeding, released August 9, 1995.

We are in full support of the comments filed by the Alliance for Community Media, the Media Access Project, and the Minority Media and Telecommunications Council in this proceeding. Like them, we believe that advanced television "transition" spectrum should be used to enhance both the quantity and quality of local educational, political, cultural, public affairs, and non-commercial programming.

See Attachment A - Brochure

My public/educational/governmental access center works with a wide range of religious, community, educational, charitable, and other non-commercial, non-profit institutions. These organizations use our public/educational/governmental access center and the facilities we provide to speak to their memberships and their larger communities and participate in an ever-growing "electronic town hall". A list of organizations that regularly use our facility is attached.

No. of Copies rec'd 5
List ABCDE

Requiring ATV broadcasters to pay fair market value for use of this additional spectrum, and reserving some of the additional capacity for public interest communications, would meet a number of the Commission's public policy goals:

1. The huge leap in broadcast capacity could expedite access by local and non-commercial voices.
2. It could assure a free place for political candidates.
3. It could create a reliable funding source for quality children's programming, "distance learning" programs offered through high schools and universities, and local theater and musical performances.
4. Nonprofits and charitable organizations in my community would be able to get their messages out.
5. The U.S. Treasury would receive \$70 billion.

On behalf of our users, volunteers and viewers, we urge the Commission to consider our children's futures, the vitality of our political and cultural life, and our country's budgetary realities as it continues its rulemaking on this vital issue.

Respectfully Submitted,

Guy F. Rittel
Executive Director
